Geographical Situation

In geographical terms, Liechtenstein is situated between Switzerland and Austria in the centre of the Alpine arc. With a total area of 160 km², it is the fourth smallest country in Europe. Its western neighbour Switzerland is around 260 times larger than Liechtenstein. In the west and south, the national frontier runs alongside the Swiss cantons of St. Gallen and Graubünden for 41 km. In the north and east, Liechtenstein shares a 37 km long frontier with the Austrian federal state of Vorarlberg.

Area

Total area	160 km ²	100%
Wooded area	68 km ²	42.2%
Agricultural area	52 km ²	32.2%

Ruggell	7.4	433	333
Schellenberg	3.6	630	307

Liechtenstein is the sixth smallest country in the world by area.

Dimensions

24.7 km at longest distance, 12.4 km at widest distance.

Highest mountain

Grauspitz: 2 599 m

Lowest point

Ruggeller Riet: 430 m

Frontiers

41.3 km with Switzerland, 36.7 km with Austria.

Environment

In Liechtenstein, the altitudinal vegetation zones range from the foothill to the alpine zones (430 m to 2 599 m above sea level). As a result, a wide variety of ecological systems can be found, which is reflected in a very diverse flora und fauna. Due to population growth and the associated land use, these ecological systems, as well as the animal and plant species living within them, are put under pressure.

Biodiversity

Threatened native species by species groups

Climate

Despite its mountainous location, Liechtenstein's climate can be described as mild. It is strongly influenced by the effect of the Föhn (a warm, dry downslope wind in the Alps), which lengthens the vegetation period in spring and autumn. Annual precipitation ranges from 900 to 1 200 millimetres. In the alpine region, annual precipitation can reach 1 900 millimetres. Whereas in the winter temperatures sometimes drop below minus 10 degrees Celsius, summer daytime temperatures generally fluctuate between 20 and 28 degrees.

History and Constitution

History

- 1342 Creation of the earldom of Vaduz
- 1396 The earldom of Vaduz becomes directly subject to the Holy Roman Emperor.
- 1434–37 Unification of upland (earldom of Vaduz) and lowland (domain of Schellenberg)
- 1699 Prince Johann Adam Andreas purchases the domain of Schellenberg; purchase of the earldom of Vaduz in 1712.
- 1719 Vaduz and Schellenberg become the Imperial Principality of Liechtenstein.
- 1806 Inclusion in the Confederation of the Rhine: Liechtenstein becomes a sovereign state.
- 1815 Accession to the German Confederation
- 1852 Customs treaty with the Austrian Empire
- 1862 A new constitution comes into force which provides for a parliament to represent the people.
- 1868 Abolition of the Liechtenstein army
- 1919 Cancellation of the customs treaty with Austria
- 1921 Amendment of the constitution; democratic rights are strengthened.
- 1924 Customs treaty with Switzerland, introduction of the Swiss franc as the official currency.
- 1938 Prince Franz Josef II. becomes the first Prince to reside in Liechtenstein.
- 1950 Membership of the International Court of Justice at The Hague
- 1960 Supplementary protocol on participation in EFTA
- 1972 Supplementary agreement on inclusion in Switzerland's EC and ECSC agreements

1978	Member of the Council of Europe
1980	Currency treaty with Switzerland
1990	Liechtenstein becomes the 160 th member of the UN.
1991	Member of EFTA
1995	Liechtenstein joins the EEA and the WTO.
1997	Foundation of Archdiocese of Vaduz
2003	Amendment of the constitution
2019	The Principality of Liechtenstein celebrates its 300 th anniversary.

Constitution

Constitution	The Principality is a constitutional, hereditary monarchy on a democratic and parliamentary basis; the power of the state is embodied in the reigning Prince and the people and is exercised by both parties under the conditions set forth in the provisions of the constitution (Article 2 of the constitution).
Head of State	HSH Prince Hans-Adam II. von und zu Liechtenstein succeeded Prince Franz Josef II. on 13 November 1989. On 15 August 2004, Prince Hans-Adam II. has entrusted Hereditary Prince Alois to exercise his sovereign powers as his representative.
Government	Five-member Government nominated by Parliament and appointed by the Prince for four years. The government is the highest executive body in Liechtenstein and is organised as a Collegial Government, which is constituted by the Prime Minister and four Ministers. This Collegial Government is responsible to the highest legislative body, the Parliament, as well as to the Prince as Head of State.
Parliament	25 Members of Parliament, called Landtag, elected by the people for four years in universal, direct and secret elections. The district upland has 15 Members of Parliament, the district lowland has 10 Members of Parliament. The Parliament is convened and closed by the Prince. The elections for the mandate period 2021-2025 were held on 7 February 2021.
Courts	Civil and criminal cases are heard initially by the Landgericht, at appeal by the Obergericht and at supreme court level by the Oberster Gerichtshof. Public law cases are dealt with by the Administrative Court and the Staatsgerichtshof. The courts are all located in Vaduz.

Population and Housing

With a population of around 39 300 inhabitants, Liechtenstein is one of the smallest countries in Europe and the world. The population is spread over eleven municipalities. Schaan forms Liechtenstein's largest municipality with around 6 000 inhabitants. Around 5 700 people live in the capital, Vaduz.

A third of the population are foreign nationals, mainly from Switzerland, Austria, Germany and Italy.

Resident population by municipalities, 2021

National Economy

Liechtenstein has a very diverse national economy with a large number of small and medium-sized enterprises. The strong industrial sector and financial services providers particularly contribute to the high value added. At the same time, the contribution of the public sector to the national economy is comparatively small.

On 26 May 1924, Liechtenstein adopted the Swiss franc (CHF) as the legal currency of Liechtenstein. All coins, banknotes and other means of payment used in Switzerland were recognised as official legal tender in Liechtenstein.

Rate of price changes

In Liechtenstein, the Swiss consumer price index applies.

Income from gainful activity

Year	in million CHF
1980	550
1990	1 093
2000	1 867
2010	2 702
2020	3 340
2021	3 371

The income from gainful activity is the sum of the income of all persons employed in Liechtenstein contributing to the compulsory old-age and survivors' insurance (including inward cross-border commuters).

Assets of the old age pension schemes

Year	Old-age and survivors' insurance (AHV)	Company pension scheme
	in million CHF	in million CHF
2017	3 171	6 030
2018	3 040	6 260
2019	3 289	6 572
2020	3 460	6 926
2021	3 647	6 570

GDP and GNI at current prices

Year	Gross domestic product (GDP)	GDP per employed person	Gross national income (GNI)	GNI per inhabitant
	in billion CHF	in CHF	in billion CHF	in CHF
2016	6.1	194 990	5.9	156 390
2017	6.4	197 300	6.6	175 050
2018	6.5	196 380	6.8	176 870
2019	6.4	187 150	6.2	161 570
2020	6.0	178 730	6.5	165 880

GDP at current prices, 2020 compared with neighbouring countries

Country	National currency	in billion	
		in billion CHF	in billion CHF
Liechtenstein	CHF	6.0	6.0
Switzerland	CHF	694.7	694.7
Austria	EUR	381.0	407.9
Germany	EUR	3 405.4	3 645.4

Euro converted at yearly average rate (1 EUR = 1.03615 CHF).

A distinctive feature of Liechtenstein's national economy is the large number of inward cross-border commuters. In 2021, 56% of Liechtenstein's work force consisted of this group. Since GDP is generated by the entire work force, country comparisons of GDP per capita may lead to misleading conclusions in the case of Liechtenstein. Hence, GDP per person employed may be considered a more appropriate figure to compare Liechtenstein across countries.

Economic structure, 2020

Measured as the share of gross value added of the respective sector in total gross value added.

Number of enterprises by sector and size

	2020	2021	Change
Total	5 179	5 295	2.2%

Social protection in Liechtenstein

Industrial Code Act (1910)

- Sickness and maternity insurance compulsory for commercial employees
- Obligatory accident insurance for companies with more than ten employees or companies with special risks

Non-occupational accident insurance (1932)

Old-age and survivors' insurance (1952)

Family allowance (1957)

Bad weather compensation in the construction industry (1957)

Subsidy for the building of houses (1958)

Disability insurance (1959)

Occupational illnesses protection (1961)

Supplementary allowances for old-age, survivors' and disability insurance (1965)

Social assistance for individual cases (1966)

Unemployment insurance (1970)

Blind persons allowance (1971)

Compulsory health insurance (1971)

Widowers pension (1981)

Maternity benefits (1982)

Insolvency compensation (1985)

Company pension scheme (1989)

Single parent allowance (1999)

Rent allowance (housing benefit) (2001)

Reduction of premiums for health insurance (2004)

Care allowance (2010)

Bilateral social security agreements were signed with Switzerland, Austria, Germany and Italy.

Through the EEA Agreement, various European legal acts in the field of social security also apply in Liechtenstein.

Sustainable development

In the areas of health, social cohesion, education and culture, employment, energy and climate as well as natural resources the development is positive or at the very least slightly positive.

The areas of living conditions, international cooperation and economy show no significant changes. Therefore the overall evaluation in these areas is neutral.

However mobility is not moving towards sustainability.

Indicators of sustainable development, 2022

Employment and Education

For many years, Liechtenstein's national economy has experienced an above-average growth in employment. Due to the strong economic growth over the past decades and the small size of the country, an increasing input of labour from neighbouring countries is required. More than half of the persons employed in Liechtenstein do not actually live there.

Employment

Year	Resident population in gainful employment		Inward commuters	Total employed	
		of which outward commuters			of which other nationalities

Labour market – Unemployment

Unemployed persons are those who are registered at the Office of Economic Affairs, who live in Liechtenstein and who are able to take up employment within two weeks. Due to statistical recording difficulties, persons who enter a longer-term further education programme or who are on maternity leave are also counted as unemployed.

Unemployment

Education

The educational institutions in Liechtenstein offer a wide range of opportunities on primary and lower secondary level. On upper secondary and tertiary level, the domestic institutions only partially cover the educational needs of the population. Therefore, a lot of students go abroad for tertiary education. In the academic year 2020/21 1 212 students from Liechtenstein were registered at advanced vocational colleges and other higher education institutions abroad. 73% of these students joined educational programmes in Switzerland, 14% in Austria and 4% in Germany.

Agriculture

The agricultural area (excluding alpine pastures) accounts for about 22% of Liechtenstein's 16 054 ha. In 2021, 0.6% of all persons employed in Liechtenstein were working in agriculture and forestry.

For the farmers, the dairy industry plays an important role. Some 55 dairy farms produced around 14 million kg of milk in 2021.

In 2020, there were 95 registered farms. Of these, more than a third was certified to produce according to organic farming production methods.

In Liechtenstein, the cultivation of forage crops is of particular importance. The share of forage crops amounts to 28% of the agricultural area. 60% of the agricultural area is used as permanent grassland.

Milk delivery to dairy (excluding milk from alpine pastures).

Goods-producing industries

Liechtenstein's economy continues to be strongly shaped by its goods production. In 2021, the goods-producing sector provided 35% of all jobs. This represents a remarkably high proportion, compared to other European countries.

Jobs in the goods-producing industries are provided by a total of 641 enterprises. These enterprises are mainly small companies with less than 50 persons employed. They are engaged in a large number of specialised market niches and contribute to the broad diversification of Liechtenstein's economy. The most important branches include mechanical engineering, manufacturing of electrical machinery, vehicle components, dental technology, the production of food, as well as construction work.

Due to Liechtenstein's limited domestic market, especially larger enterprises are heavily export-oriented. A vast majority of their goods production is sold abroad.

The most important export destinations for Liechtenstein's goods-producing industries are Switzerland, Germany and the USA.

Tourism

The majority of people visiting Liechtenstein are day tourists. In group tourism, the Principality is very popular as a place to visit and as a shopping stop on round trips (above all for watches, jewelry and souvenirs). The average length of stay of overnight guests in 2021 was 2.2 nights.

Transport and Communication

Liechtenstein's road network consists of 420 km of asphalted and 425 km of unpaved roads. The well developed public transport relies mostly on buses, which connect the eleven municipalities with each other and with the railway networks in Switzerland and Austria. The railway line links Feldkirch in Austria to Buchs in Switzerland and has three stops in Liechtenstein.

The level of motorisation is very high. There are around 780 passenger cars for every 1 000 inhabitants. This represents a peak value in Europe. In the neighbouring countries of Switzerland and Austria around 540 respectively 570 passenger cars per 1 000 inhabitants are in use.

Energy

Electricity, natural gas, heating oil, diesel oil and petrol are amongst the major energy sources in Liechtenstein, which is strongly dependent upon energy imports. The proportion of own energy supply to total energy consumption is 13%. Energy production in Liechtenstein is limited to the energy sources electricity, firewood and biogas.

Electricity purchased on exchanges and electricity volumes without designations of origin are declared as "Non-verifiable energy sources".

Public Finance

Liechtenstein's public authority budgets comprise the national budget and the budgets of the eleven municipalities. In 2021, total tax receipts amounted to around CHF 969 million. Other sources of revenue include investment incomes and fees. On the expenditure side, major expenses are for social welfare and education.

Statistical information on the Internet

Statistics Portal Liechtenstein

In the statistics portal, the Office of Statistics offers a comprehensive range of reliable, up-to-date statistical data and analyses from almost all areas of life. The information offered also includes statistics that show developments over longer periods of time and document changes in areas of life.

www.statistikportal.li

Here you will find detailed information on the content of the statistics, graphs, tables, time series and country comparisons.

eTab-Portal Liechtenstein

eTab is the interactive database of the Office of Statistics in German and English.

www.etab.llv.li

With eTab statistical tables can be created according to individual needs. The selected characteristics result in a table whose presentation can be changed with various options. Numerous export formats are offered so that the data can be further processed.
